DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 20 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. Claim 20 recites the limitation "the brush apparatus" in line 12. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 14-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Andros (USPN 5,844,030). Andros discloses a scrubber comprising a substrate support adapted to support a substrate, a brush 62 coupled so as to contact a substrate supported by the substrate support, the brush 62 having a surface adapted to contact a surface of a substrate to be scrubbed, a complexing agent 40 coupled to the scrubber brush surface, the complexing agent 40 adapted to bond metal particles, and a mechanism adapted to generate relative movement between the substrate and the brush 62, wherein the complexing agent 40 is adapted to bond to a metal compound

Art Unit: 3723

which is a metal oxide, wherein the complexing agent 40 is a solid material attached to scrubber brush 62, wherein the complexing agent 40 is attached to the scrubber brush surface by blending (note Fig. 1-9, col. 2, lines 38-67, col. 4, line 7 to col. 56, col. 7, lines 18-65, col. 9, line 66 to col. 13, line 9).

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Morinaga et al and Bahten are cited to show method and apparatus for treating surface.
